Coverage for terminal illness

You will get your guaranteed benefit in advance if you get diagnosed with a terminal illness.

Cash benefit at the end of your plan

Notes:

¹ Amount to be returned is equal to the total Annual Premiums. The amount of total Annual Premiums returned may differ from the total amount of actual premiums paid due to rounding differences and modal factor, if any. The amount will be returned if no claims are made.

² The dividends and the loyalty bonus are not guaranteed and can be zero. The Loyalty Bonus, if any, would be equal to a percentage of the total annual dividends earned and will be given at the end of your plan.

³ If diagnosed with a terminal illness, the life insurance coverage is paid out in advance and the policy will terminate. This benefit is not given on top of the life insurance coverage.

⁴ The amounts illustrated above include accumulated dividends at a 3.6% annual interest rate. The interest rate is based on current company assumptions and can change depending on future experience. The illustration assumes that dividends are left with the company to earn interest. The dividends are not guaranteed and can be zero. This benefit will be given only if the policy has remained in-force for the last 20 years.
